Fetal Doppler

Listen to your unborn baby! Hear and record your baby's heart-beats, kicks, and hiccups. ChoiceMMed Fetal Doppler helps the entire family bond during pregnancy.

Now, at comfortable home, all mothers and families can enjoy the pleasure of listening to their baby's heart beat, and caring health of unborn baby.

ChoiceMMed MD800 Fetal Doppler

- *The secure you need beside Fetal Doppler*
- *Listen your baby's heartbeat at home*

Usually we learn whether fetal is safe by Visual Doppler, but this testing will be done after the first trimester of pregnancy, and you must go to the hospital to check, inspection process is a little longer.

Today, you can care your fetal anywhere and anytime.

ChocieMMed Fetal Doppler can find fetal signal earlier in 10 weeks. Heart-beats, kicks, hiccups can express through voice. The most important is you can use it at home. It's good news for the high risk of pregnant women umbilical cord around the neck, maternal hypertension, and fetal abnormal position

And the whole family will enjoy the happiness of voice, it's a symbol of new life.

ChoiceMMed MD800 Fetal Doppler
